LCC-MZT Team II Project: #1037/1277 / File: 15-A

Dear Mr. Pivetta:

I want to take a moment to thank you and your team for your efforts on the Lower Elwha Klallam waste water collection project. This project was constructed by the National Park service (NPS) for the Lower Elwha Klallam Tribe as part of the overall Elwha River restoration in Port Angeles, Washington.

Over the course of the project there were numerous design deficiencies that were addressed and overcome by your team's efforts, expertise, and quality workmanship. This not only contributed to the overall project's success but helped us finish the project ahead of schedule.

Again, thank you, and we look forward to working with Pivetta Brothers Construction on future projects.

Respectfully,  
**LCC-MZT Team II**
